Category Name Design

Actionee HAIS

Sub Category

Subject Lack of Non TDRSS Scheduling

Description of Problem or Suggestion:

The presentations did not address, activities or system designs that would support scheduling when TDRSS is not available or when the TDRSS antenna could not be deployed. Requirements state there will be a backup X band when TDRSS is not available.

Originator's Recommendation

Update the design to reflect the requirements for scheduling when TDRSS communication link is not available.
